START
1
Data compilation
(Coords S, Target Y)
2
Model definition
pred_fun(s_tr, y_tr, s_nw)
3
scp_geostatistical()
(or scp_areal())
4
predict() / residuals()
(Intervals fit, lwr, upr)
5
plot(fit, y_true)
(Prediction intervals)
Spatial
autocorrelation?
yes
6
diagnose()
(spatial_moran() test)
7
plot(diag)
(3-panel dashboard)
no
Strata or
boundary audit?
yes
8
strata_diagnostics()
(boundary_diagnostics())
no
9
coverage_report()
(Winkler score & coverage)
